

Valo's Fixed Wireless Access provides rural Albertans fast, reliable internet capabilities. Our Wireless Network is positioned in locations where fiber connections are currently not available due to geographic terrain, with long-term plans of establishing fiber channels. Valo's Fixed Wireless offering comes in two symmetric speed tiers of 50 Mbps and 100 Mbps at affordable prices that will definitely put a smile on the end-user's face, both from a service experience and cost point.

Wide Coverage

Valo's network towers are strategically placed in key locations to efficiently cover residents & small to medium businesses within a 20km radius and more.

Simple & Flexible

The nature of Fixed Wireless Access provides an easy solution to service delivery within the area of coverage.

Cost Effective

Fixed Wireless Access comes at a much lower cost for development and deployment, making the turnaround time for the solution quicker, more accessible and cost effective.

50 Mbps

At 50 Mbps the end user will be able to use their internet to the fullest and stream on multiple devices without interruption.

100 Mbps

100 Mbps brings internet at a much faster pace allowing for an exceptional end user experience that allows for more connectivity.
